

Coalition for Consumer Choice

We the undersigned, do strongly oppose efforts to eliminate consumer choice of oysters and other popular shellfish products through the Food and Drug Administration's (FDA) review of a petition that proposes adoption of additional costly and unnecessary shellfish processing rules and regulations now under consideration.

We support the American concept of consumer choice. We believe the shellfish industry's campaign of consumer education and awareness is the best way to protect the very small percentage of Americans who may be affected by eating certain shellfish.
